Bagging Rotor Standard I

Filling stations: 6 / 8 / 10 / 12
Total filling quantity max.: 180 / 240 / 300 / 360 kg
Weight approx: 170 / 180 / 190 / 210 kg
Motor power: 0,18 kW

Bagging Rotor Standard II

Filling stations: 6 / 8 / 10 / 12
Total filling quantity max.: 180 / 240 / 300 / 360 kg
Weight approx: 185 / 195 / 205 / 225 kg
Motor power: 0,18 kW

Electric control box 360°swivelling
Automatic or manuel operation
Sensor control for station filling

Bagging Rotor Standard III

Filling stations: 6 / 8 / 10 / 12
Total filling quantity max.: 180 / 240 / 300 / 360 kg
Weight approx: 185 / 195 / 205 / 225 kg
Motor power: 0,18 kW

Electric control box 360°swivelling
Automatic or manuel operation
Station filling

Bagging Rotor Plus

Filling stations: 10 / 12
Total filling quantity max.: 300 / 360 kg
Weight approx: 215 / 235 kg
Motor power: 0,18 kW

Electric control box 360°swivelling
Potential contact for automated Start/Stop
Sensor control for station filling
Bag holder with innovative lifting unit
Paper / PVC bag
